WHAT CAN AN ECONOMICS MAJOR DO FOR YOU?

The Department of Economics offers theoretical and applied courses in diverse areas including microeconomics, macroeconomics, labor economics, monetary economics, international economics, public economics, and industrial organization. It provides an opportunity for the student to pursue their interests within the framework of a liberal arts education.

ECONOMICS MAJORS ARE ABLE TO:

- Communicate, analyze and work with economic data
- Apply economic theory in prescribing policy in private and public sector
- Strong writing skills
- Communication skills
- Logical reasoning
- A wider array of problem-solving skills

ECONOMICS MAJORS GO ON TO BECOME:

- Researchers
- Analysts
- Lawyers and legal consultants
- Educators in the U.S. and abroad
- Economic development experts and advisors
- Managers and administrators in banking and finance sectors
- Actuaries
- Diplomats and ambassadors
- Legislators
- Economic advisors
- Analysts and administrators at state and federal agencies
- Economic Forecaster
- Legal Consultant
- Market Research Analysts
- Management Consultants
