## WHAT CAN A SOCIOLOGY MAJOR AT UK DO FOR YOU?

Sociology is the study of human behaviors and the interaction between human groups and institutions. Sociologists take an in depth look at social inequalities (including race, gender, and class); the environment; cultural traditions; family relations; health care; globalization; politics and social movements; and crime and justice. At UK, sociology students encounter these topics in the academic classroom but are also encouraged to get involved in the field. We offer numerous opportunities for participation in internships, research, volunteering in the community, and study abroad.

## SOCIOLOGY MAJORS ARE ABLE TO:

- Understand group dynamics and work successfully in collaborative environments
- Appreciate diverse perspectives
- Construct persuasive arguments
- Collect, manage, and analyze complex forms of data
- Communicate effectively through written and oral presentation

## SOCIOLOGY MAJORS GO ON TO BECOME:

- Health service administrators
- Paralegals
- Law Clerks
- Human Resource Managers
- Market researchers and advertisers
- Probation Officers
- Police officers
- Teachers
- Social service case workers
- Survey researchers
- Domestic violence victim advocates
- Data analysts
